

J5 = interface connector to main Nano sheet (06_main_system_interconnect)
Assumption: divider resistor values and load resistor are nominal (not explicit in repo)
current sensor (A7 sense, in-line on panel + lead) + 330R load / red panel-current LED
100x100mm solar panel + resistive voltage divider (A6 sense) + ACS712-05B hall-effect

Sheet: /
